

# NOXPUMP

The strongest  
pre-workout supplement  
legally available!

**N**OXPUMP is the most powerful pre-workout supplement legally available to bodybuilders. Each serving contains up to three times more active ingredients than other pre-workout powders, which is sure to give you the best workouts of your life! NOXPUMP was developed by six-time Mr. Olympia Dorian Yates. Regarded by many as the one of the most knowledgeable bodybuilders of all time, Dorian dominated the sport of bodybuilding for nearly a decade. He now leads the charge in the development of a new supplement line made just for hardcore bodybuilders. NOXPUMP is Dorian's pre-workout fuel.

**WHAT DOES NOXPUMP DO?**  
To become a champion in any sport, you must eat properly and push yourself to the max during every workout. There are no shortcuts. NOXPUMP is engineered to help hardcore bodybuilders increase energy, stamina, and blood flow to their hardworking muscles while they work out. NOXPUMP has the latest herbal and pharmaceutical-inspired ingredients needed to support focus, sustained energy, nitric oxide production, vasodilation, blood flow, oxygen availability, and even testosterone!

**WHO SHOULD USE IT?**  
NOXPUMP was formulated specifically for the advanced bodybuilder who needs a stronger pre-workout powder than what he's currently using. This is not a marketing gimmick or joke. The level of active ingredients in one serving is just too strong for most individuals. Those who are sensitive to pre-workout energizers or nitric oxide stimulants should avoid using this product altogether.

### WHY INCREASE INTENSITY, FOCUS, AND STAMINA DURING TRAINING?

Without these three things, bodybuilders will not be able to maximize their efforts in the gym. Bodybuilders need to push their muscles to lift that last rep, to add poundage on the bar, and to train with all-out intensity. Without hard training, a proper diet, and the right supplements, bodybuilders will not build muscle.

**BENEFITS OF NOXPUMP**

- **Provides Unsteppable Energy:** Our researchers included a precise combination of the latest herbal and pharmaceutical-inspired ingredients to boost levels of norepinephrine, epinephrine, and dopamine, which increase energy beyond regular “old-school” pre-workout powders.
- **Increases Strength and Power**
- **Increases Mental Focus:** Thanks to the inclusion of various grey-market psychoactive compounds, users of NOXPUMP experience a heightened sense of mental clarity and nervous system transmission.
- **Enhances Muscle Pumps:** The key ingredients in this formula increase nitric oxide levels, vasodilation, and blood flow. This allows bodybuilders to enhance nutrient delivery to their hardworking muscles while they train.
- **Improves Cellular Hydration:** When used as directed, NOXPUMP increases thermoregulation and muscle cell volume.
- **Burns More Calories:** Due to the overwhelming level of stimulants found in this product, users experience increased calorie burning while training.
- **Increases Testosterone:** Key ingredients have been scientifically shown to optimize natural testosterone levels while also supporting androgen receptor production.

**Q: HOW DO I TAKE NOXPUMP?**

**A:** Just simply mix the contents of the packet into 12-14 oz of water 30 minutes before the most intense workout of your life.

**Q: CAN NOXPUMP BE USED WHILE DIETING?**

**A:** Yes! NOXPUMP actually helps the process. It has active ingredients to increase energy expenditure and thermogenesis. This results in more calories burned. Users also experience a reduction in appetite due to the profound level of stimulants that each serving packs.

**Q: CAN NOXPUMP BE USED WITH OTHER STIMULANTS?**

**A:** No way! Make sure you never consume NOXPUMP with other products containing caffeine (e.g., coffee, tea, soda), geranium oil extract, or products containing Geranamine™, phenylephrine, ephedrine, pseudoephedrine, or

other stimulants while using NOXPUMP. Due to the potency and incredible pump-signaling ingredients, users should not exceed the recommended dose of one packet every 24 hours.

**Q: DOES NOXPUMP TASTE GOOD?**

**A:** Should we have made NOXPUMP work, or should we have made it taste delicious? Dorian Yates is unwilling to compromise on results, so he chose to make the product work! Due to the concentration of active ingredients in each serving and the absence of tons of sugar, NOXPUMP does not taste great. It's simply too concentrated in “actives” to taste delicious like our competition.

**Q: WHAT MAKES NOXPUMP DIFFERENT FROM OTHER PRE-WORKOUT SUPPLEMENTS?**

- A:**
- Designed to be the most powerful pre-workout supplement legally available.
  - Up to three times more active ingredients than other pre-workout powders.
  - The only pre-workout supplement developed by six-time Mr. Olympia Dorian Yates.
  - Made specifically for bodybuilders.
  - Each box contains enough servings for 30 workouts!
  - Contains a potent mixture of pharmaceutical-inspired stimulants such as time-released caffeine, geranium root extract, Chocamine®, octopomine, hordenine, and theobromine.
  - Formulated with a precise blend of arginine, arginine analogues, and citruline malate to maximize nitric oxide production in the muscles.
  - Contains the patented ingredient GlycoCam®.

- Free of various dyes, coloring agents, aspartame, and loads of sugar and other fillers.
- Manufactured in the USA in a state-of-the-art manufacturing facility.
